

Jody Salani

UX-focused Full-Stack Developer + Solutions Architect

Resumé

Resumé written in PHP, CSS

Experience

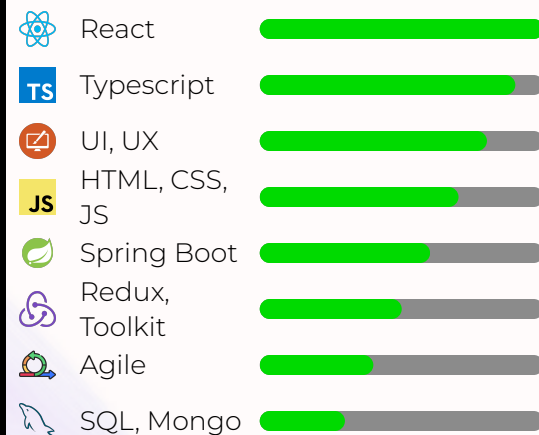

Senior Full-Stack Developer

Sept 2023

React, Redux, TypeScript, Spring Boot, Java, Mongo

- Develop major systems for the Air Force's new flight planning application, CAMPS
- Execute top-priority requirements on a specialized "tiger" team with higher expectations for output and accuracy
- Refactor legacy code, increasing performance and scalability
- Implement tools like StoryBook, AWS Queueing, Component Libraries, and Mongo Aggregation

Skills:

Full-Stack Developer

Jan 2023 - Sept 2023

React, Redux, JavaScript, Bootstrap, PHP, SQL

- Architected and developed applications for multiple clients and stacks
- Consulted on application architecture, business logic, code quality, and scalability
- Utilized powerful API's for cryptocurrency, geolocation, and server management

Solutions Architect

Jan 2021 - Dec 2022

HTML, CSS, JavaScript, Spring Boot, Java, SQL, bash, LaTeX

- Architected and designed full-stack development tasks with mockups, acceptance criteria
- Interfaced with executives and developers alike on project design and process flow

Software Developer

Sept 2018 - Dec 2021

HTML, CSS, JavaScript, Spring Boot, Java, SQL, bash, LaTeX

- Developed DocGen, the company's application for automating insurance products, acting as sole developer and architect
- Implemented invoicing, client customization, auditing, and output to multiple file formats

Projects

Thruzy | Maggs, Inc.

May 2023 - Jul 2023

Navigate cyclists through Philadelphia's sprawling bike trails via Google's Geolocation API

GPT-INU | Ludus Monde

Jan 2023 - Apr 2023

Crypto idle-game and responsive splash page for the GPT-INU coin made w/ React+Redux

Education

MBA (Accelerated) | [Drexel University](#)

2018

BS Music Industry (Magna cum laude) | [Drexel University](#)

2013 - 2017
